

## Regained Hope & Blessed

Leaving a bad home situation, LaShonda found herself relocating to Bay City with her two small children. Being referred to Good Samaritan Rescue Mission for help, LaShonda was skeptical that staying at a homeless shelter would help her family. After hearing many messages from volunteer chapel speakers and seeing the hard work the staff put into her case management, LaShonda quickly discovered that the shelter was different than what she had expected. They received clothing and hygiene items, good food, and help with school enrollment. They are also only a week away from getting keys to their new two-bedroom apartment. "I never thought I'd be in a homeless shelter. Compliments to the chef. The food is wonderful. This place has kept us from being hungry and kept a roof over our heads. GSRM can help people regain their future. We are blessed. My son loves his new school. The staff is always positive and supportive. I can see my future now going far," says LaShonda. "My dream is to be a paramedic," she smiles.
